Manager's Message

Our education system requires certain reforms but in terms of spirit and practicality of the knowledge imparted. We have to give priority on the inclusion of the skill based education at the school level. When the students pass out, they should have two certificates of passing out of 10th examination and a specific skill acquired by him/her during schooling.

The education system has to be designed in a way that produces large number of employment generator and not just employment seekers.

The introduction of a particular skill set at younger age will promote entrepreneurship in our country.

I invite and encourage the parents, staff and students to join us in creating a conducive atmosphere where our children learn to do well in academic and become a good human.

Manager
